

## REMARKS ON THE BATTERY

---

### BATTERY LIFE

When a new battery is installed, this watch operates for approximately two years. However, if the functions such as a stopwatch are used, the battery life may be less than the specified period.

### MONITOR BATTERY

The battery in your watch may run down in less than the specified period after the date of purchase, as it is a monitor battery inserted at the factory to check the functions and performance of the watch.

### BATTERY REPLACEMENT

- Be sure to have the battery replaced with a genuine battery at an ALESSI watch store.
- If the old battery is left in the watch for a long period of time, a malfunction may be caused due to battery leakage, etc. Have it replaced with a new one as soon as possible.
- Battery replacement is subject to billing even if it runs down within the guarantee period.

- The battery is not rechargeable. Never attempt to recharge it, as this may cause battery leakage or damage to the battery.

## **WARNING**

- Do not remove the battery from the watch.
- If it is necessary to take out the battery, keep it out of the reach of children.
- If a child swallows it, consult a doctor immediately as it will affect the health of the child.

## **CAUTION**

- Do not leave your watch out of temperatures from 5°C to 35°C for a long period of time. Doing so may shorten the battery life or cause a malfunction due to battery leakage.
